

PHD ASSOCIATION HEALTH

Dear PhD Student,

On behalf of the PhD Association at the Faculty of Health, Aarhus University, we are pleased to welcome you.

As a PhD student at Health you are automatically a member of the PhD Association. The PhD Association is an independent association with the purpose of improving the conditions for PhD students. Our involvements are:

- Organizing the annual PhD day
- Arranging social and scientific After Work meetings
- Contributing to the work in the Academic Council and the Departmental councils
- Work for improved conditions for PhD students in the PhD Committee, and the Advisory Councils for the Graduate Programme leaders

Help us improve the conditions for the PhD students and come join us at our monthly meetings and become an active member of the association. We also welcome you to attend the biannual general assemblies in March and September. The assembly is an opportunity for you to hear about all our involvements, be elected to the board, and contribute to new initiatives.

You can read more about the PhD Association on <http://phdassociation.dk> and join our Facebook page <http://www.facebook.com/phdassociationAU> to get all the latest updates relevant for your PhD.

Sincerely,
The Board of the PhD Association, Health
